

Canadian Mustard Seed

Bulk Program Spec Sheet

Yellow | Brown | Oriental

Bennett's Seed

bspco.ca

info@bspco.ca

Origin	Canadian Prairies (Saskatchewan-led programs)
Common uses	Condiments, sauces, spice blends, ingredient manufacturing
Supply model	Contract-based programs with lot allocation and traceability

Program options

- **Yellow mustard** (mild heat, bright colour; common for table mustard and blends).
- **Brown mustard** (stronger flavour profile; bolder condiment programs).
- **Oriental mustard** (sharper heat and aroma; specialty profiles).

Typical contract parameters (set by buyer, confirmed by lot)

Parameter	How it is handled
Class	Yellow / Brown / Oriental (as contracted).
Grade	Canada No. 1 / No. 2 / No. 3 (CGC-aligned).
Moisture	Contract maximum (targets can be set for storage and destination).
Dockage / foreign material	Contract maximum.
Admixture	Contract maximum; tighter buyer targets available.
Colour / visual	Buyer targets; verified by lot where required (sorting options).
Optional (by request)	Residues, microbiological/food-safety screens, other buyer-required tests.

Cleaning & handling options

- Cleaning to contract targets (dockage/admixture).
- Colour sorting options for visual consistency.
- Metal detection prior to packing (where required).

Documentation & logistics

- Lot IDs per shipment (traceability).
- Packing list, bill of lading, commercial invoice.
- COA / analysis summary (on request).
- FOB / CIF / DAP terms based on destination; bags/totes/bulk programs.
