

# Canadian Wheat

## Bulk Program Spec Sheet

CWRS | CPS | Other western classes (by request)

Bennett's Seed

bspco.ca

info@bspco.ca

|              |  |
|--------------|--|
| Origin       | Canadian Prairies (Saskatchewan, Alberta, Manitoba)                                    |
| Supply model | Contract-based programs with lot allocation and traceability                           |
| Primary uses | Milling and food manufacturing (bread, noodles, general milling and blending programs) |

## Program overview

- Consistent specifications built for repeat purchasing (not one-off spot loads).
- Lots are cleaned, graded, and packaged near origin to keep freight efficient and documentation consistent.
- Programs can be tightened to buyer-specific targets; COA/testing available on request.
- **Program options:** CWRS (Canada Western Red Spring), CPS (Canada Prairie Spring), and other western classes by request.

## Typical contract parameters (set by buyer, confirmed by lot)

| Parameter                  | How it is handled  |
|----------------------------|--|
| Class / program            | Defined in contract (e.g., CWRS, CPS).                                       |
| Grade                      | Defined in contract (No. 1 / No. 2 / No. 3), CGC-aligned.                    |
| Protein                    | Contract target; basis and method defined in contract.                       |
| Test weight                | Grade-aligned; confirmed by lot.   |
| Moisture                   | Contract maximum.  |
| Dockage / foreign material | Contract maximum.  |
| Optional (by request)      | Falling number, DON/mycotoxin screens, residues, other buyer-required tests. |

## Packaging & logistics

- **Packaging:** Bulk (program-dependent), 25 kg bags, or 1 MT totes.
- **Terms:** FOB (major Canadian ports), with CIF or DAP options by destination.
- **Lead time:** Scheduled by lot allocation, cleaning capacity, and rail/vessel timing.

## Documentation & traceability

- Lot IDs per shipment (traceability).
- Packing list, bill of lading, commercial invoice.
- COA / analysis summary and buyer-specific testing (on request).
- Destination-aligned export documentation pack (as required by contract).
